

Lockers for Education

Steel lockers for all age groups

Product Datasheet

What size lockers do I need?

Lockers should be specified and installed so that the compartments are within easy and comfortable reach of users. For health & safety, it is recommended that care is taken to avoid placing compartments where users have to stretch or overreach to use them.

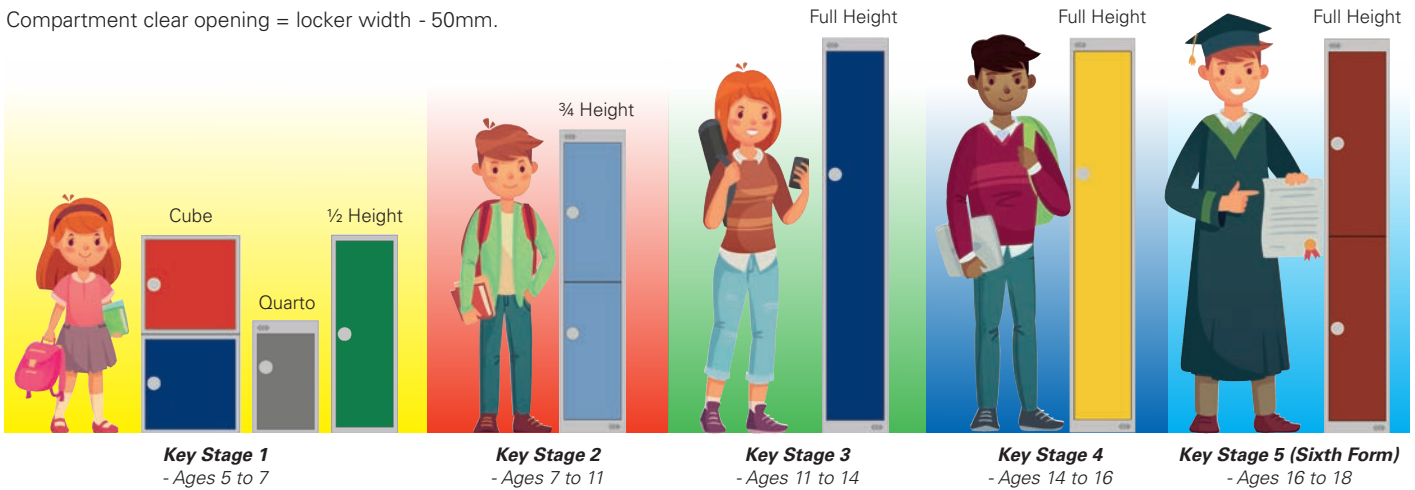

For school use, ensure that the lockers specified have compartments within the height range of the user age group.

The scale illustration below, will help with height comparisons.

Compartment clear opening = locker width - 50mm.

All of our lockers are finished with an ActiveCoat antimicrobial powder coating. ActiveCoat technology minimises the risk of bacterial cross contamination.

Quality UK manufactured steel lockers

Versatile, hard-wearing and reliable, our lockers provide quality, choice and security as standard. But don't just take our word for it – our lockers meet the testing requirements of the British Standard for Clothes Lockers BS 4680: 1996.

- Riveted/welded cold rolled mild steel construction.
- Fitted with deadlock- supplied with x 2 keys per lock.
- Recessed cam locks through door/body for added rigidity and security.
- Ventilated at top and bottom for improved air circulation.
- Doors feature plastic card holder.
- Suitable for dry area only.

Standard Lock Options

Standard Deadlock

This simple and economical cam lock provides user access with a small, easily replaced key. The lock is supplied with two keys and a master key is available.

Standard Latch Lock (Padlock)

Transfers responsibility for locking to the user. The user is required to secure the locker with a padlock (not supplied). Recommended for key stage 1 & 2.

Accessories

Customise our lockers to meet your requirements.

Sloping tops are essential in hygiene sensitive locations (such as hospitals and the food industry). The slope prevents items and litter being left on locker tops and makes cleaning easier. Sloping tops increase the overall height of the locker.

Locker support frames raise lockers off the floor, reducing impact damage and improving hygiene standards.

Supplied with adjustable feet to allow for uneven floors. Inset rear legs to clear pipes and skirting. Standard height is 150mm.

Support frame with seat. Seat units are incorporated into the locker frame, as well as slatted seats to the front.

They can include a mesh shelf for footwear.

Door numbers

Tear-drop shaped number plate with black numbers on silver.

Self adhesive door numbers

Truncated circles, numbered 0-9. Black on silver.

Numbered key rings

Made in various coloured plastic and engraved and printed to any number and/or alpha character of your choice.

Spare keys

Whether you've lost your existing locker key and need a replacement or want to order spare locker keys for additional users – we can meet every need.

Lockers for Key Stage 1 & 2

Cube lockers - Key Stage 1

Cubes have an equal height, width and depth; allowing combined stacking of units on the floor or on support frames.

- Versatile and compact all steel single door cube lockers; popular for personal effects and bags.
- Light grey body and choice of door colour.
- Easily stackable.
- Fitted with camlock as standard.

Height	Width	Depth
300mm	300mm	300mm
380mm	380mm	380mm
450mm	450mm	450mm

MADE IN BRITAIN

Quarto lockers - Key Stage 1

As the name suggests these Quarto lockers are a quarter of the size of a full height locker.

- Mixing colours and bolting together the lockers, can create attractive, as well as effective storage.
- Light grey body and choice of door colour.
- Fitted with camlock as standard.

Free standing seating & benching

Comprehensive range of easy-to-install cloakroom units, with a wide choice of options and accessories, ensuring you will find exactly what you are looking for. All units are available in a choice of exciting colours to match your interior. Hook Bench and Benches are available with 3 seat heights, making them the perfect solution for schools; whatever age group they teach.

- Frames are constructed from robust 50mm round, thick wall tubing with welded joints for strength and durability.
- Choice of solid timber Beech or Black Polymer slats ideal for educational or leisure wet area changing areas.
- Adjustable feet fitted to all floor standing units.

Free standing bench

Single and double sided modern cloakroom benches.

Captive coat hangers slide along a rail underneath the top shelf

ActiveCoat antimicrobial technology is incorporated into all painted surfaces of our seating and benching at the time of manufacture, offering constant protection against a wide range of bacteria.

Standard frame colour range

Lock Options

Standard Camlock

Simple and economical cam lock provides user access with a key. The lock is supplied with two keys and a master key is available.

Standard Latch Lock (Padlock)

Transfers responsibility for locking to the user. The user is required to secure the locker with a padlock (not supplied). This is optional. Many key stage 1 & 2 schools choose this lock type as the locker door can be closed and latched, but not secured, making it easier for young children to operate.

Digital Combination Lock

A simple-to-use, battery operated keyless lock which can be programmed for single or multi-users. A master key ensures supervisor access.

4-Dial Multi-User Manual Combination

This solution is ideal for facilities where keys are not desirable. The lock can be reset whenever the locker is open allowing the combination number to be changed if required. Operator key for instant access and no fuss code reset.

Coin return or keep

Ideal when lockers have 'shared' users. The key is released when coin is inserted. Key is captive again when the door is reopened and the coin is returned or retained.

Can be fitted to tool lockers and 4 door small item locker only.

Important note regarding locker installations

Wherever possible lockers should be secured to ensure stability. Single lockers should ideally be fixed back to a wall. Runs of lockers should be fixed together side-to-side and either fixed back to a wall or fixed back-to-back to another run of lockers.

Consultation, design & quotation?

At Whittan we design storage solutions every day, and with over 70 years' experience, we have developed a level of expertise for you to draw on.

Our cutting edge Design360 software package, allows us to provide you with a quick, accurate proposals that showcase solutions clearly.

Unlike many specialists who charge for bespoke storage design work, our services provide your ideal storage design free of charge, along with detailed quotations.

Our experience allows us to work with you, to achieve the optimum solution based on your requirements, to meet your timescale and budget.
