Product Datasheet

# Emergency Services lockers

We offer a variety of Airwave/ESN Locker solutions. From the storage of 'Airwave' radios to PSU bags, we have the right solution for Emergency Services throughout the UK.

The large sizes of the locker offers more room for day to day clothes as well as uniforms, containing everything in the one location which is both safe and secure.

Versatile, hard-wearing and reliable, our lockers provide quality, choice and security as standard.

- Riveted and welded steel construction.
- Durable epoxy powder coated finish in a variety of colours.
- Supplied with camlocks as standard.
- Compartment clear opening = locker width -50mm.

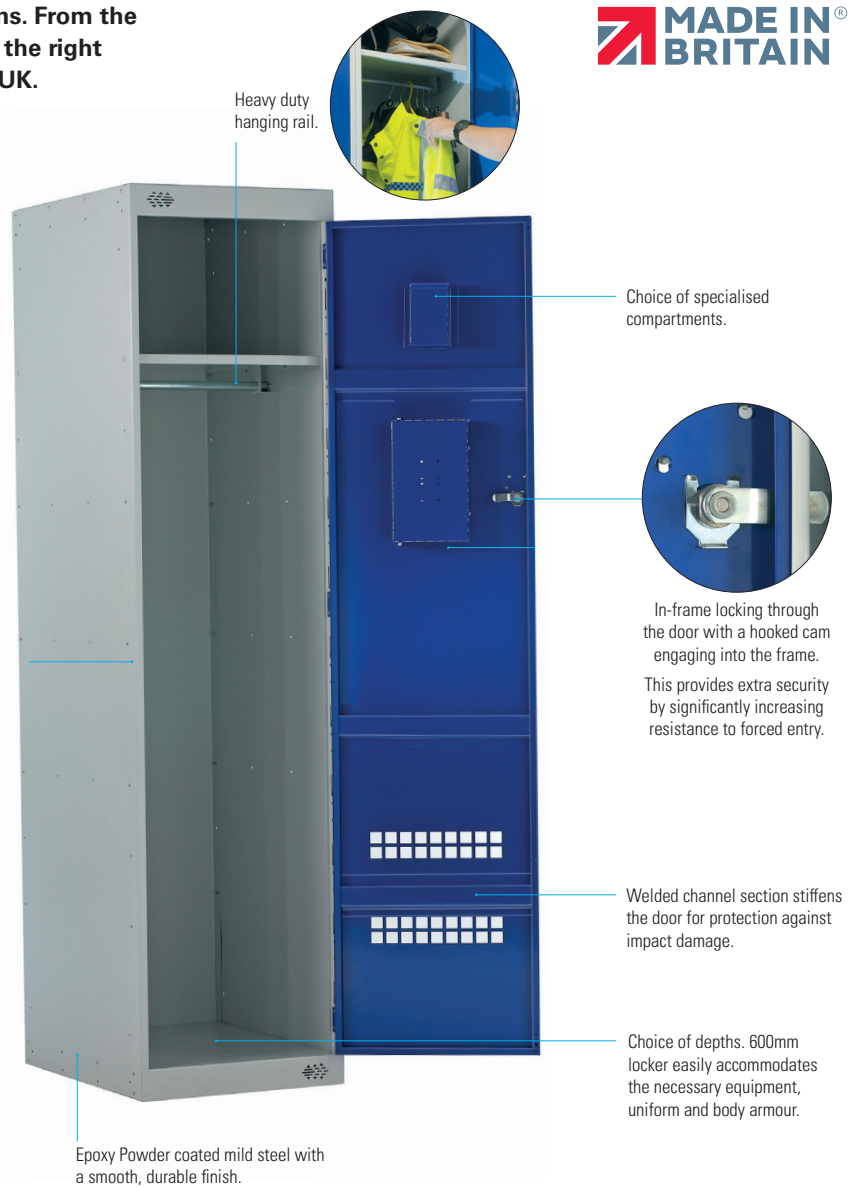

Lockers have been tested and conform to the requirements of the British Standard for Clothes Lockers BS 4680: 1996 'Standard Duty'.

ActiveCoat antimicrobial technology is incorporated into all our locker products at the time of manufacture, offering constant protection against a wide range of bacteria.

We also offer Crew large volume lockers, ensuring ample storage space with internal dividers to segregate bulky uniforms, boots, equipment and personal possessions. Refer to our Utility Locker datasheet for details.

## Lock options

**Standard Camlock**  
Simple and economical cam lock provides user access with a key. The lock is supplied with two keys and a master key is available.

**Standard Latch Lock (Padlock)**  
Transfers responsibility for locking to the user. The user is required to secure the locker with a padlock (not supplied).

**Coin/Token Return**  
Ideal when lockers have 'shared' users. The key is released when a coin or token is inserted. The key is captive again when the door is reopened and the coin/token is returned to the user.

**Coin/Token Retain Lock**  
Generates revenue from 'shared' user lockers. The key is released when coin or token is inserted. Key is captive again when the door is reopened. Coin/token is retained in the box.

**Tumbler Combination Lock**  
This solution is ideal for facilities where keys are not desirable. The lock can be reset whenever the locker is open allowing the combination number to be changed if required. Operator key for instant access and no fuss code reset.

**Digital Combination Lock**  
A simple-to-use, battery operated keyless lock which can be programmed for single or multi-users. It offers a high level of security, but as a personal entry code can be set and changed by the user, the digital option gives even greater flexibility. A master key ensures supervisor access.

## Standard colours

ActiveCoat antimicrobial technology is incorporated into all our locker products at the time of manufacture, offering constant protection against a wide range of bacteria.

Door colours- Body colour is Light Grey

Light Grey (RAL 7035)

Blue (RAL 5002)

- CS cannister holder.
- Door vents provide additional air circulation. This allows outside clothes to dry better and prevents unpleasant odours from building up.

# Accessories

Customise our lockers to meet your requirements.

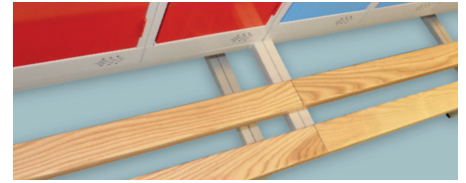

**Sloping tops** are essential in hygiene sensitive locations (such as hospitals and the food industry). The slope prevents items and litter being left on locker tops and makes cleaning easier. Sloping tops increase the overall height of the locker.

**Locker support frames** raise lockers off the floor, reducing impact damage and improving hygiene standards.

Supplied with adjustable feet to allow for uneven floors. Inset rear legs to clear pipes and skirting. Standard height is 150mm.

**Support frame with seat.** Seat units are incorporated into the locker frame, as well as slatted seats to the front.

They can include a mesh shelf for footwear.

## Seating and benching.

Comprehensive range of easy-to-install cloakroom units, with a wide choice of options and accessories, ensuring you will find exactly what you are looking for. All units are available in a choice of five exciting colours to match your interior

**Quarto lockers** are a quarter of the height of a full height locker. Can be used on top of full height lockers for helmet storage. They can also be bolted together to create effective storage space.

**Numbered key rings.** Made in various coloured plastic and engraved and printed to any number and/or alpha character of your choice.

**Door numbers.** Tear-drop shaped number plate with black numbers on silver.

**Self adhesive door numbers.** Truncated circles, numbered 0-9. Black on silver.

## Important note regarding locker installations

Wherever possible lockers should be secured to ensure stability. Single lockers should ideally be fixed back to a wall. Runs of lockers should be fixed together side-to-side and either fixed back to a wall or fixed back-to-back to another run of lockers.

## Consultation, design & quotation?

At Whittan we design storage solutions every day, and with over 70 years' experience, we have developed a level of expertise for you to draw on.
